

COVER LETTER

Hey,

I am Denys.

I am Graphic Designer with **experience in Print, Packaging and Marketing & Advertising Design**.

Three years ago, I won a Green Card and came to the US, and for all these years I worked because I needed, and now I want to do, something I am passionate about. I enjoy working in a creative team and have ability to communicate with clients, managers, and colleagues.

I currently work part-time at Digi Copy and Print as their graphic designer, but I am looking for a **full time** job, and something **related to web development**.

I also have more than **10 years of customer service** experience and more than **4 years of management experience**, which helps me to **understand customer needs** and apply it into my work.

I will be honest, I do not have a lot experience with Web Development (I build only my portfolio website from scratch), but I have a good foundation to start the transition from Print Design to the Web.

Proficient in Adobe Creative Suite, familiar with **HTML, CSS**.

Fluent in Python, Flask, Heroku cloud, JavaScript and jQuery.

Studying Python and Django Full Stack Development.

Long story short,

for now I have knowledge to build a static Websites from scratch to publishing and actively **looking for a great and talented team to join**.

I do not want to take up much more of your time, so if you are interested, you may **visit my portfolio** at <https://denkportfolio.herokuapp.com/> to see examples of my work.

Please keep me in mind. I am sure **I will be a strong addition to any developing team**.

Thank you for your time.

Kind regards,

Denys Krychevskiy
